

## **UDI Cross-Reference**

Patient Name	Set Type (description)
Date	

Line #	Batch ID	Description	Notes	UDI
To be filled out during Procedure			From web query	
N.I. i				

## Notes:

- Batch ID is laser printed directly on the part, is alphanumeric or variable length, and a maximum of 20 alphanumeric characters
- Only 1 item should be recorded on each line
- Form available at www.acumed.net
- UDI retrieval using the website is intended for non-sterile parts only. For sterile-packaged parts, obtain the lot/batch # and associated UDI from the package label
